

**Research Institute for Applied Neurosciences (FAN GmbH)
Magdeburg, Germany**

Research Scientist Fellowship Position

is available to study neuroregenerative effects of growth factors with particular emphasis on

***animal stroke models
and
endogenous stem cells.***

The project will utilize a combination of immunohistochemistry and pharmacology and focus on development and use of in vivo drug discovery assays.

Highly motivated and qualified applicants should possess a Ph.D. or M.D. degree or equivalent and have a background either in stroke research, immunohistochemistry, developmental biology or pharmacology. Position for 12 month is available from September 2005. The candidates should be of age 35 years or less and hold an EC-passport (except German) or come from an associated member state. The allowance will be up to 4.500 EUR/month. Interested individuals should submit a letter of interest and curriculum vitae to:
